EDUCATION

RAJARAMBAPU INSTITUTE OF TECHNOLOGY — Islampur, Maharashtra
BACHELOR OF TECHNOLOGY IN COMPUTER ENGINEERING — *June 2024*
- Cumulative GPA : **8.18/10.0**
- Relevant Coursework: Algorithms and Data Structure, Database Management System, Operating System, Computer Network,Design and Analysis of Algorithm, Discrete Mathematics, Object Oriented Programming

SHRI RADHAKRISHNA JUNIOR COLLEGE — Gadhinglaj, Maharashtra
HSC — *June 2020*
- Cumulative Percentage : **74.31/100**

New Horizon School — Gadhinglaj, Maharashtra
CBSE — *June 2018*
- Cumulative Percentage : **88/100**

EXPERIENCE

Uvocorp | Technical Writer
August 2023 - Present
As a technical writer, I have effectively addressed challenges faced by international students in C++, Java, and web development, providing clear and comprehensive solutions to their queries and difficulties.

Internpe | Frontend Developer
June 2023 - July 2023
During my internship at InternPe, I gained valuable experience as a frontend developer, contributing to various web development projects and enhancing my skills in creating engaging and user-friendly interfaces.

TECHNICAL SKILLS

- **Programming Languages** : C++, Java, Javascript
- **Frontend Technologies** : HTML, CSS, Javascript(ES6+), React.js, Tailwind CSS, Bootstrap
- **Backend Technology(Basics)** : Node.js, Express.js, SQL/NoSQL
- **Version Control** : Git, Github

PROJECTS

VirtualLab website
- Developed a comprehensive eLearning platform to facilitate seamless placement preparation for students. The platform offers a diverse range of educational content, practice tests, and interactive quizzes to enhance students skills and prepare them for placement interviews.
  Tech Stack : HTML, CSS, Javascript, Firebase

Shopping website
- Designed and developed a Shopping UI template, where users can navigate through different sections.
  Tech Stack : React.js, Material UI, Javascript, Html, Css, Tailwind Css

StreamFlix Website
- Designed and developed a Movie website where users can watch their favourite movies, with the help of TMDB Api, and can login and logout with the help of fibrebase database.
  Tech Stack : Reactjs, Tailwind Css, firebase

Gym Management
- Designed and developed a Gym window form where users can login and logout and also they can add members and delete the added members.
  Tech Stack : .Net Framework, C#, SQL Server 2022

CERTIFICATES

- **Developing Front-End Apps With React (Coursera-IBM)**
